Model #: N546-15M

Multimode Duplex 50/125 12-Fiber Optic Patch Cable MTP/MTP, 15 Meter

Highlights

- High Density MTP® cables eliminate dozens of individual cables
- 12 Fibers under one compact jacket
- Use in Ethernet or Fibre channel applications

Description

Tripp Lites MTP® cables are ideal for fiber optic Ethernet networks or Fibre Channel storage systems. Twelve optical fiber strands under one jacket feeding into one MTP® connector, eliminate six indvidual duplex cables and all of their corresponding connectors. Coupled with Tripp Lites high-density MTP® Patch Panels, the MTP® system eliminates enormous amounts of cabling, freeing up valuable rack real estate. 50/125 Multimode cable provides superior bandwidth for Gigabit Ethernet and Fibre Channel storage.

In addition to our stock cables, Tripp Lite offers custom MTP® assemblies in a variety of customer specified lengths and modes, including 62.5/125, 10Gig Multimode, 8.3/125 Singlemode, as well as PLENUM rated assemblies. Please contact Tripp Lite for details.

Package Includes

Multimode Duplex 50/125 Fiber Optic Patch Cable MTP/MTP - 15M (50')

Features

- High Density MTP® cables eliminate dozens of individual cables
- 12 Fibers under one compact jacket
- Use in Ethernet or Fibre channel applications
- 50/125 Multimode fiber, PVC Rated jacket

Specifications

OVERVIEW	
Intended Application	Computer Networking (Fiber)
PHYSICAL	
Color	Orange
Style	Fiber Optic

Length	15 Meter
CONNECTIONS	
Connector A	 MTP
Connector B	 MTP
